

American Crystal Sugar Co., Moorhead, Minn.

FARGO FORUM PHOTO BY GIFFORD HENSON

This Moorhead Plant is the largest beet sugar factory in the world under one continuous roof. Its power plant is capable of generating enough electrical energy to supply a city of 10,000 population, and its water pumping station has a capacity of 5,000,000 gallons each 24-hour period. The storage capacity of the sugar warehouse is 40,000,000 pounds of sugar. Needless to say, sugar beets fast are becoming one of the leading crops of the Red River Valley.
